

GIVING CHANGES EVERYTHING

ENGAGEMENT OPPORTUNITIES

RankenJordan.
PEDIATRIC BRIDGE HOSPITAL

WAYS TO GET INVOLVED

WORKPLACE GIVING

Matching charitable contributions can be a great way to double or even triple corporate fundraising efforts.

GRANT/FOUNDATION GIVING

Much of our model of *Care Beyond the Bedside* is funded in part by grants from corporations and foundations. We welcome the opportunity to learn how we can partner together.

IN-KIND DONATIONS

Ranken Jordan graciously accepts new and unused items such as toys, clothes, and more for children and families. Consider hosting a drive event with your fundraiser to support our children. To learn more about items our patients need, visit rankenjordan.org/giving/ways-to-give/

CREATE YOUR OWN FUNDRAISER

Looking to engage your employees and friends? Create a fundraiser to build teamwork towards a great cause and help the children of Ranken Jordan Pediatric Bridge Hospital! Employee dress down days, sporting competitions, dine out events, and even virtual Facebook fundraisers are a great way to have fun while giving back!

ATTENTION YOUNG PROFESSIONALS!

Looking for an opportunity to give back to a local nonprofit with an incredible mission and network with other young professionals in our community? Visit rankenjordan.org/ypb.

ABOUT RANKEN JORDAN

Ranken Jordan specializes in caring for children and families who face complicated medical diagnoses, preparing a child and their family to cope with their challenges, with the ultimate goal of going home. But, Ranken Jordan isn't your typical hospital.

Our state-of-the-art facility has 60 inpatient beds and 140,000 sq. ft. where children can play. This includes 5,700 sq. ft. of outdoor adaptive sports fields. A typical day could include petting the therapy dog, cozying up with a good book in the reading nook, strumming the guitar, painting a picture, and so much more. Our medical equipment is mobile so we can administer medications wherever the child is receiving therapy rather than keeping them inside their rooms.

Our physicians, nurses, therapists, child life specialists and other members of a child's care team support the child and family as they navigate through financial, medical and personal issues through innovative care. This unique care model, called *Care Beyond the Bedside*, lets children heal through play because we know that playtime is natural for kids and promotes healing.

THE LIVES YOU CAN IMPACT

MEET ASHER

The strength of our most fragile patients amazes our doctors, nurses, and other specialists every day. Born with his healthy twin brother, Asher arrived at 28 weeks. Weighing just 2 pounds, he had his first heart surgery within hours of his birth. At first, he needed nitrogen to survive – which is rare for a baby. He had several medical procedures within his first few months of life. Asher's strength and spirit are astounding.

After spending months in an acute care hospital all of Asher's family got to go home, except for Asher. He depends on a ventilator to breathe and a gastrostomy button for nutrients. He was transported to Ranken Jordan Pediatric Bridge Hospital to continue his healing journey. Asher had to adjust to the change, he would get so mad that he would hold his breath and turn purple. Despite Asher's challenges, Ranken Jordan's dedicated team does not give up. And neither does Asher.

Today, Asher is a very active child who loves people and smiles all the time. He participates in physical, occupational, and speech therapies. His parents were able to take Asher outside for the first time. Although Asher is not able to play with his twin brother, they love being together. Their family enjoys playing on the adapted playground and walking around Ranken Jordan – inside and outside. Asher's parents want Asher to come home. But they know that if he can't go home yet, then he is in the best place that he could be.
