

As a leader in transitional healthcare, we provide exceptional services for children with complex medical needs by reimagining what is possible and inspiring life-changing solutions for patients and families.

Viewing Health Record Information in MyRankenJordan

Up-to-the-minute information about a patient's health is viewable in the MyRankenJordan portal. Examples of this information includes medications, allergies, notes, and lab results.

1. Log in to the MyRankenJordan portal.
2. On the right side of the portal, you will see Allergies as well as Key Metrics such as Weight and Height/Length. Below each Key Metric is the date of the latest result.

Allergies
Grass, Chocolate, Tylenol

Key Metrics
Weight 77.82 lb Dec 15, 2023
Height/Length Measured 135 cm Dec 15, 2023

3. To view previous results in a graphed format, select the blue link for any metric.
4. The left side of the portal shows a 'Health Record' option.
5. Once clicked, the user can see options for the following health information:
 - a. **Lab Results**
 - i. The patient's latest lab results.
 - ii. These can be filtered by date.
 - b. **Caregiver Training**
 - i. Any caregiver training information that is present in the patient's chart is available to be viewed.
 - c. **Medications**
 - i. A current list of medications ordered for the patient.
 - d. **Procedures**
 - i. Any previous procedures documented in the patient's Procedure History.

As a leader in transitional healthcare, we provide exceptional services for children with complex medical needs by reimagining what is possible and inspiring life-changing solutions for patients and families.
